Mr. Merchant, you're advertising in a better place in the paper which goes into the home and is read by the whole family. The Herald is "her" paper.

SENATE UP LOCK CANAL

Vote Taken After an All-day Debate, Which Was Far From Exciting.

PRESIDENT AND HOUSE WIN

MATTER NOW SUPPOSED TO BE SETTLED.

Washington, June 21.—The senate today took a position in accord with the president and the house of representatives by declaring for a lock canal across the isthmus of Panama. The result was reached after a day's discussion that was almost devoid of interesting incident. There was only one record vote and that was negative in character, coming on a motion to lay on the table the lock type substitute for the sea level bill. This motion was made by Senator Kittredge and was voted down—31 to 26.

Settles the Matter.

The vote is generally accepted as definitely settling the type of the great waterway, and terminates what at one time threatened to become a sharp difference between the senate on the one hand and the president and the house on the other. The engineers' report has been given prominently in the discussion, and frequent attention has been called to the fact that while eight out of the thirteen engineers reported favorably on the sea level canal, all of the five dissenters were American engineers, while of the other eight the majority were Europeans. Some senators avowed their preference for the all-American report.

Sensors Kittredge, Culom, Scott, Foraker and Dick spoke on the bill today.

Vote in Detail.

The vote in detail was as follows: Yeas—Ankney, Berry, Blackburn, Burnham, Burrows, Carmichael, Clark (Mont.), Culberson, Daniel, Dick, Foster, Frazier, Gallinger, Hale, Kittredge, Latimer, McCumber, McLaughlin, Mallory, Martin, Morgan, Nelson, Overman, Platt, Rayner, Simmons, Stone, Tallaferro, Tillman, Whyte—21. Nays—Alice, Allison, Benson, Beveridge, Brandegee, Bulkeley, Burkett, Clark (Wyo.), Culom, Dooliver, Dryden, Flint, Frazier, Fulton, Gable, Hansbrough, Hemmaway, Heyburn, Hopkins, Kean, La Follette, Lodge, Long, Millard, Patterson, Penrose, Pomeroy, Proctor, Spooner, Sutherland, Warren, Wetmore—26.

The Substitute.

The substitute was then agreed to without division. It is as follows: That a lock canal be constructed across the isthmus of Panama connecting the waters of the Atlantic and Pacific oceans in the neighborhood of the city of Panama, the project of the board of engineering and surveyors created by order of the president, dated June 21, 1905, in pursuance of an act entitled "An act to provide for the construction of a canal connecting the waters of the Atlantic and Pacific oceans," approved June 23, 1902.

SUFFRAGISTS ARE RIOTOUS

Women Dragged Off to Jail in London for Asserting Their Rights.

London, June 21.—Miss Billington, Miss Kenny and three other leaders of the militant woman suffragists were arrested in Cavendish square today for creating disturbance outside of the residence of the Exchequer Assessor's house. An outbreak is the particular bugbear in the present ministry of the woman suffragists and special police have been stationed in the neighborhood of the residence to prevent threatened attacks upon it. A score of women with banners flying assembled in Cavendish square this forenoon and announced their determination to be heard by Mr. Asquith. They defied the police and their leaders were arrested and dragged off to the police station. The women arrested were arraigned in the Cavendish court today, and were fined £50 or two months imprisonment, whereupon they expressed the intention of becoming a martyr and of going to jail. The hearing of the other cases was adjourned.

The Countess of Carlisle, herself an ardent suffragist, attended to the affair of this morning at today's meeting of the Women's Liberal Federation. She said she was shocked when passing through Cavendish square to see so-called woman suffragists fighting police and making an impudent mockery of womanhood.

The countess repudiated any connection with the "poor misguided women" who attempted to mob the chancellor of the exchequer in his own house.

SIMPLE FUNERAL SERVICES

Body of John M. Pattison, Governor of Ohio, Consigned to the Grave.

Milford, O., June 21.—After a simple funeral service attended by high state officials, party associates and friends from all parts of the country, the body of John M. Pattison, late governor of Ohio, was consigned to the grave this afternoon. The funeral was held at the Greenlawn cemetery.

Judge Hudson Harmon of Cincinnati, attorney general in President Cleveland's cabinet, and a lifelong friend, spoke on the political life of Governor Pattison. Bishop Henry Stuebel of Cincinnati delivered the funeral sermon.

The interment was at Greenlawn cemetery.

THOUSANDS FOLLOWED SEDDON TO THE GRAVE

Wellington, N. Z., June 21.—The funeral of Francis Seddon, who died suddenly, June 16, on the steamer Ovestry Grange, took place today, and was a striking demonstration of public feeling. A enormous number of people followed the casket on foot to the grave, through streets packed with spectators from all parts of the colony. The day was observed as a general holiday throughout New Zealand.

FIRE IN ASYLUM.

Middletown, Conn., June 21.—Fire in the amusement hall connected with the state hospital for the insane early today caused one death and nearly created a panic among the inmates of the asylum, who were removed to a dormitory during the height of the fire. F. L. Lichtenstein, who was a spectator, was crushed by a falling wall. The burned building was valued at \$35,000.

COSTLY ISSUES

Senator Bailey's Opinion of the Present Occupant of the White House.

SENATE DEBATE ENLIVENED

TRAVELING EXPENSE ACCOUNT DISCUSSED.

Washington, June 21.—During a lull in the debate on the Panama canal bill today Senator Hale called up the sundry civil appropriation bill and Senator McCumber continued his speech in opposition to the appropriation of \$25,000 for the president's traveling expenses. He placed his objections to the appropriation on the ground that it makes a class distinction and said that he was opposed to that principle. He objected not only to the president's "gallivanting" about the country, but also to his using the public money to invite such representatives of the press as he might desire to have with him—such as would give out the kind of information that would suit him and conceal such as he did not want printed.

False Claim Put Up.

It had been claimed that but for the president's trip about the country the railroad rate bill would never have received the popular approval that has been given it, but, said Mr. McCumber, had not Mr. Bryan been advocating this legislation long before the president's message in 1905.

Mr. McCumber presented only special reference to the present chief executive, saying that his remarks applied to the office. Senator Foraker suggested that, as the president is commander-in-chief of the army and navy, he has a right to use public vessels for public purposes, and Senator Tillman said that the president's time is so completely occupied that he must be considered as attending to public business wherever he may be.

President Above the Law.

Senator McCumber then argued that the proposed law would have the effect of abrogating the anti-pass law. "If," he said, looking at Senator Hemmaway, who sat directly in front of him, "the president should accept a pass from a railroad company, the prison bars would be opened to let him in, but if he should not accept a pass, he would be liable to arrest and imprisonment for those who do not, and none for those who hold the highest office."

Mr. Bailey's Opinion.

He admitted that there might be a need for amendment of the executive income, saying he had heard that there had been an increase of \$100,000 in expenses, but the incumbency of the president.

Retinue of a Monarch.

Mr. McCumber also found in the provision a tendency towards European systems permitting a retinue. He said we might well look forward to the time when the president would be a monarch, and of this thing and that. He did not want to ape the old world's methods.

His Heart Washed.

Los Angeles Man Survives a Most Delicate Operation.

Los Angeles, June 21.—To have his heart washed in alcohol and sand washed from it as it beat, and still survive has been the experience of C. A. McCartney, a Pasadena contractor. While riding a motorcycle he came in collision with a hay wagon and a wooden rake prong pierced his breast. The surgeon found that particles of sand from the road had been driven in from the wound as far as the heart, and he then replaced it. Other internal injuries were attended to, and the cavity in the chest washed. The indications are that McCartney will recover.

ONLY ONE SURVIVOR.

Dover, England, June 21.—The Danish schooner Bertha was sunk near the South Goodwin lightship today as the result of a collision with the British steamer American from Antwerp for New York. Eight of the schooner's crew were drowned. Peter Norholm, the captain's son, was the only survivor. The American proceeded, not having sustained any damage.

WOMAN KILLED HIM.

St. Louis, June 21.—In the office of Chief of Detectives Desmond this afternoon Mrs. W. Arnold confessed that she killed Frank L. Phelps yesterday at her house because she thought he was going to make her carry out a compact between them to commit suicide. It was believed Phelps had committed suicide.

SOCIALIST TICKET.

Cheyenne, Wyo., June 21.—A full state ticket was nominated by the Socialist party at Laramie yesterday. William T. Brown of Sherman was named for congress and W. L. O'Neill of Laramie for governor.

ADOLPH WEBER'S DOOM IS SEALED AT TRONDHJEM TRED TO KILL WHOLE FAMILY

Will Hang for the Murder of Father, Mother, Sister and Brother.

San Francisco, June 21.—Adolph Weber must hang for the murder of his mother in the spring of 1904. The supreme court of the state today rendered a decision sustaining the verdict and confirming the judgment of the Placer county superior court in Auburn, which, in January, 1905, found the young man guilty and sentenced him to pay the death penalty.

Also Robbed a Bank.

Weber was also charged with the robbery of the Placer County bank. Gold stolen from that institution was found buried in the Weber barn. The condemned man is at present confined in the Placer county jail.

Trusts Should Be Destroyed.

"There is some talk of controlling the trusts. You might as well talk of controlling burglary. We do not say they shall steal only a little bit, but that they shall not steal at all. It is so of private monopolies. It is not sufficient to control or regulate them. They must be absolutely and totally destroyed. Corporations should be controlled, but private monopolies must be exterminated, root and branch. Now, you can call that a radical doctrine. Yet it is more conservative to apply this remedy now than to wait until predatory wealth has by its methods brought odium on legitimate accumulations."

Public Sentiment Making Progress.

"What used to be called radical law is now called conservative because people have been investigating. The doctrine has not changed, but public sentiment has brought odium on legitimate accumulations."

HITS THE TRAIL FOR BOSTON

Judge Barch does Not Stay Long at Capital of the Nation.

Washington, D. C., June 21.—It was expected that the nomination of Booth as district attorney for Utah would be reported favorably in executive session today, but no report was presented. The senate judiciary committee has authorized the subcommittee in charge of the nomination to report direct to the senate without the delay of submitting a report to the entire committee, and it is probable this will be done tomorrow.

PURE FOOD BILL IN HOUSE

Debate Delayed by Conference Report on Naval Bill.

Washington, June 21.—The unexpected occurrence in the house today. Instead of taking up the house substitute to the day Heyburn pure-food bill early in the day, as anticipated, it was late in the afternoon before James R. Mann (Ill.) proposed to the chamber as poetaster at Birmingham. Williams' competitors have withdrawn from the race and Williams will be appointed immediately.

Exports of Our Meat Products

Over \$130,000,000 Worth Sent Abroad During 11 Months of the Fiscal Year.

Washington, June 21.—Exports of meat and meat products from the United States in the eleven months of the fiscal year ended with May 31 aggregated over \$130,000,000 in value, according to a report issued by the department of commerce and labor. These figures for eleven months says the report, show a larger exportation of meats and meat products than in the corresponding period of any other year in the history of the export trade, and an increase of practically 50 per cent when compared with the corresponding period of 1895.

A radical doctrine occurs in all the principal products, but is especially noticeable in lard, oleomargarine oil, salted pork, ham, beef, and fresh beef. For the ten months ending with April up to which complete figures are available, exports of the various articles were: Lard, \$51,350,000; oleomargarine oil, \$15,000,000; salted pork, \$10,000,000; ham, \$15,000,000; beef (fresh), \$1,000,000; tallow, a little less than \$4,000,000; sausage casings, \$2,225,000, and fresh and canned pork, \$1,000,000 each. Exports of canned beef and of bacon show but little increase during the last decade.

Great Britain, says the report, is by far the largest purchaser of American meat products. Of the \$55,000,000 worth of bacon, ham, fresh beef and canned beef exported in 1905, the United Kingdom took \$25,000,000 worth, or practically 50 per cent of the total; of the total exports of meat valued at \$100,000,000 it took \$80,000,000 worth, while of the \$40,500,000 worth of cattle exported in the same year it took \$26,750,000 worth.

THREE SENTENCED TO DEATH

Warsaw, June 21.—A court martial here today tried four men accused of killing a policeman. Three were sentenced to death and the fourth to ten years' imprisonment.

"CUT LOOSE AND BUILD CANAL"

Roosevelt Enthusiastic Since the Senate Has Voted in Favor of Lock Type.

WILL ISSUE ORDER AT ONCE

PLANS ALREADY BEING DISCUSSED.

Washington, June 21.—"Cut loose now and build the canal. The American people want results on the isthmus as soon as they can be obtained and I want them. Dig, dig. Congress and the people are behind us in our efforts."

Within forty-eight hours after the completion of the Panama canal legislation President Roosevelt will issue, in effect, the above order to Chairman Shonts and Chief Engineer Stevens. The president expressed great gratification at the action of the senate in supporting his plan for a lock canal. He has been convinced for several days that the lock type would be adopted. A careful canvass of the senate has been made and he was assured that there would be a safe majority in favor of the lock type, which he has advocated since the report of the engineer's commission was received.

Also Opposed the Treaty.

It was pointed out at the White House that practically the same senators who voted against the lock canal project also were opposed to the Panama treaty and record their votes. The president regards the vote of congress on the lock type of canal as a vote of confidence. Orders will be issued in a few days to push the work as rapidly as possible, and it is announced that before the summer is far advanced as many men and as much machinery as can be profitably employed will be making the dirt fly.

Secretary Taft and Chairman Shonts of the canal commission were also gratified at the outcome of the struggle in the senate. For the past two weeks they have been exerting all their influence with individual senators to get them to favor the lock type of canal.

Discussing Plans.

Upon being advised of the result of the vote, Mr. Shonts called on Secretary Taft and began to discuss plans for the prosecution of the work. It was decided that the whole commission should start for the isthmus at an early moment, and that Chief Engineer Stevens should accompany it. The steamer Panama will sail Thursday from New York, and on it the commissioners will embark. It is the purpose to make a thorough inspection of the canal, which will be directed by point where experts must determine the lines where it is to be continued, and Mr. Stevens desires that full approval shall be had of his own plan before the work goes further.

CONSUMPTION AT THE HEAD

Leading Causes of Death in the United States Given in Census Report.

Washington, June 21.—Tuberculosis of the lungs and pneumonia were the leading causes of death in the United States, according to a special report on mortality in 1904, issued today by the census bureau. The statistics are restricted to those cities and states which possess records affording satisfactory data. The states covered being Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, Vermont, together with the District of Columbia, New York and New Jersey and lowland embraced more than two-fifths of the estimated population of the United States. The death rate from tuberculosis and pneumonia was 16.7 less than in foreign countries except Norway and Sweden.

JAPS IN JAIL AT CALIENTE

Bookman of the Gang Is Suspected of Firing the Shot that Killed Monahan.

Las Vegas, Nev., June 21.—In the riot between the Japs and the citizens at Caliente Tuesday, when Officer Monahan was slain, it is reported by some who were right on the scene at the time of the shooting that at least three of the Japs fell at the first volley, and their remains were taken away during the excitement.

The bookman of the Jap gang, who is suspected of having fired the fatal shot at Monahan, escaped as far as Acoma, a station north of Caliente. A locomotive was sent to Acoma after him, where he was captured by shaving off his mustache and otherwise hiding his identity. He is in the local jail at Caliente, together with four others of his countrymen. They declare that if the bookman is hung that Hashimoto, a big boss who supplies the men, will have to swing too. There is a crowd of officials, railroad and county, at Caliente. The body of the slain officer was shipped to Ogden today en route to his relatives in Iowa.

TROUBLE CAUSED BY DRUNKEN COLONEL

St. Petersburg, June 22, 2:10 a. m.—A large portion of the news in the papers here this morning consists of dispatches telling of military disaffection. In addition to the outbreaks at Sevastopol and Ryazan, reported Thursday, the dispatches report that the garrison of Krasnoyarsk, capital of the province of Yenisei, and one of the principal cities of Siberia, mutinied and killed its officers out of hand. Trouble was caused by an intoxicated colonel, one Shurin, who, hearing a titter from a group of enlisted men, sabred one of the soldiers. The latter's companions thereupon fell upon the colonel with clubs. Two of the soldiers were arrested, and as soon as the news spread the regiment mutinied and demanded the release of their comrades. Captain Kosemin, who ordered his company to fire on the mutineers, was killed by his own men. The entire population of Krasnoyarsk is in a panic.

SHOT FROM AMBUSH.

Two Men Fouly Assassinated Near Lamesa, Tex.

Guthrie, Okla., June 21.—A special to the State Capitol from Crows, Okla., states that John Pureyear and Earl Seeds were assassinated near Lamesa, Tex., today by a three man. Pureyear and Seeds went to a water tank with several head of horses and were shot from ambush. Neither had any chance to reply to the murderous fusillade, and both fell, expiring almost immediately. Three suspects were arrested and tonight a crowd of farmers demanded that the prisoners be taken from the county jail and lynched. Pureyear had trouble with three of his neighbors a year ago, and since then there has been a feud, which had its climax in the double murder.

SENATOR CLARK WILL START WEST MONDAY

Washington, June 21.—Senator Clark of Montana will leave here Monday for a western trip lasting several weeks, and upon his return east will go to Europe for several months rest and travel.

JUDGE DIES SUDDENLY.

Pittsburg, June 21.—Judge Marcus W. Achesson of the United States circuit court for the Third federal circuit, which comprises Pennsylvania, New Jersey and Delaware, died suddenly of heart disease here today. Judge Achesson was appointed in 1880.

SEATE MAKES THE RATE BILL

Conferees Agree Upon a Measure in Which Upper House Concedes Little.

PIPE LINES SQUEEZED OUT

PASS PROVISION NOT VERY DRASTIC.

Washington, June 21.—An understanding was reached by the conferees on the railroad rate bill tonight, which, it is predicted, will result in a complete agreement being reached tomorrow. The conferees will meet at 10 o'clock in the morning to draw up the agreement. It is the present purpose to have it presented to the house tomorrow that it may be printed in the Record, as required by the rules, and called up for action Saturday.

There are yet three points which will receive discussion in the morning, but even on these the conferees know the position of their number so well that the result may be predicted with reasonable certainty.

Pipe Lines Go Out.

Of the points, the first is the sleeping car amendment. The prediction is that sleeping cars will be included as "common carriers" in the bill. The second is the much-debated pipe line amendment. The bill is to be settled by changing the words "common carriers" to "railroads" in that portion of the law forbidding the ownership of commodities. The effect of this change will be to exclude pipe lines from the operation of the law forbidding the ownership of commodities. The senate amendment which included lumber in the list of commodities forbidden to be owned by common carriers, it is said, is retained in the bill. There has been increasing effort to have this amendment eliminated, but so far without avail.

The third point for further discussion is the question of the five day notice required to be given before the issuance of an injunction or interlocutory order making effective the decrees of the commission.

Moderate Pass Provision.

The pass provision as tentatively agreed on will prohibit the issuance or acceptance of passes to officers of the national government, of state governments, of municipalities, counties and townships. This is the entire prohibition, the railroads being left to use their discretion as to the issuance of passes to persons not included in the above enumeration. Members of congress are included in the list of persons to be regulated as common carriers.

The bill is said to be "in its judgment" and "fairly remunerative" are left out of the bill. It is expected on the conference report in the house, as all of the senate amendments in which either the railroads or the house as desirable additions to the measure have been accepted by the conferees.

As the tentative report stands tonight the senate has done very little reading from the amendments which it placed in the bill.

IS IN JAIL FOR CONTEMPT

Salt Lake Blacksmith Imprisoned for Failure to Obey Mandate of Murray Justice Court.

J. Haight, a blacksmith of Salt Lake, was summoned to appear in Justice C. F. Durand's court at Murray about a week ago as defendant in a suit for debt. He failed to appear, and was taken into custody on contempt of court. Haight is now in the county jail. He says he will remain in jail rather than pay the fine. The court has ordered protective association has the collection in hand.

LOSES TEAM AND WAGON

Peoa Man and Son Came Near Drowning in Duchesne River—Swam for Their Lives.

Provo, June 21.—T. M. Neill and his son, Quincy Neill, of Peoa, Summit county, are here today on their way home from Vernal, where they went on business with the land office. On returning they attempted to cross the Duchesne river at Myton, with the result that his team and wagon floated down the river and Mr. Neill and his son came near drowning. They were driven along the road on the north bank of the river towards the bridge through deep water which had overflowed and covered the road. Suddenly the bank, which had been undermined by the water, caved in and the wagon, team and occupants were precipitated into the river. The team was running water. The men were thrown out on the river side, and as they could not swim, they were rescued by a swimmer ahead of the horses and wagon and succeeded in reaching the shore, while the animals and wagon were swept down the river. The water in the reservoir country has been higher than ever known, and the town of Myton was practically submerged, although the water is now lower.

A meeting of the funeral directors of the state will be held here July 3, 4 and 5 for the purpose of organizing a state organization of the profession.

A marriage license has been issued to J. Leo Nowell of Fayette and Emma Newell of Provo.

Deputy Sheriff Barnett is suffering from an attack of pneumonia, contracted while on his late outing in Strawberry Valley. He is slowly recovering.

A daughter has been born to Mr. and Mrs. James P. Hight, all well.

PREMATURE EXPLOSION

OF CHARGE OF GIANT

Asotin, Wash., June 21.—Moses Goss, Frank Taplin, Jr., and one Cook were killed, and Henry Thormahlen was fatally injured by the premature explosion of a charge of giant powder at Shoremaker grade, near Asotin, today. Goss was road supervisor of district No. 2, and the other three were employed under his supervision.

Goss was preparing a blast and was tamping the charge with earth when it exploded. He was literally torn to pieces. Cook and Thormahlen were also mutilated. Mr. Goss was one of the most prominent and respected residents of Asotin county.

ELECTRICAL STORM.

Washington, June 21.—A severe electrical storm, accompanied by high wind, visited Washington late this afternoon. President and Mrs. Roosevelt were out riding when the storm broke, and returned to the White House thoroughly drenched.
